

Colocation Europe

Expand your IT Business to new markets in Europe.

Benefits

- Partnerships with some of the largest data center operators in the world
- Localized expertise in 12 key European markets
- Reliable and Insured
- Competitive pricing
- Proven performance with Fortune 500 and small business customers
- Certified Data Center Expertise

Looking to expand your existing data center presence in the US with a **European footprint**?

Bespin International has Certified Data Center Design Professionals (CDCDP) on-staff with experience on a variety of colocation projects. We have enabled large enterprise network expansion across continents, and have similarly helped upstart Tech companies conduct exploratory research in new markets by reducing the cost of entry.

Bespin International has the **work ethic**, partnerships, and dedication to success that will ensure the project is delivered on-time and in-budget.

European Colocation solutions by Bespin are ideal for:

- Large enterprises expanding into new international markets by conducting **discreet** market research and then brokering the **preferred** business-relationship that benefits both parties.
- Small/medium businesses looking to lower risk of market entry through strategic placement of IT equipment in a cabinet that is ideal to reach the intended customer market.

Bespin has project experience and partnerships in:

- Austria
- Belgium
- Cyprus
- France
- Germany
- Italy
- Luxembourg
- Malta
- Spain
- Switzerland
- The Netherlands
- UK

Host critical IT equipment at reliable and innovative Tier III or above data centers.

Compare offers from different Data Center operators to select an ideal European location for your IT needs.

Get competitive pricing on your colocation cabinet and bandwidth requirements.
