

Bespin

International

The International MSP

Poised to be your International Managed Service Provider.

TREND: Outsourcing to an MSP is a growing trend in business, as more and more companies realize the benefits of having MSPs as a trusted partner in their growth and expansion strategy.

■ Benefits

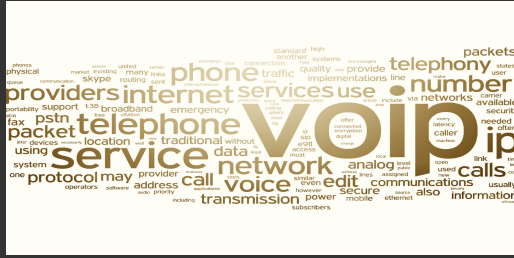

- Rely on experienced professionals who live-and-breathe your corporate strategy.
- Reduce risks of new market entry.
- Low overhead market entry.
- Experience in telecom carrier network expansions.

How to control network expansion costs?

Bespin International has business locations based in Europe and Africa that allow you to reach new markets quickly and without major overhead costs.

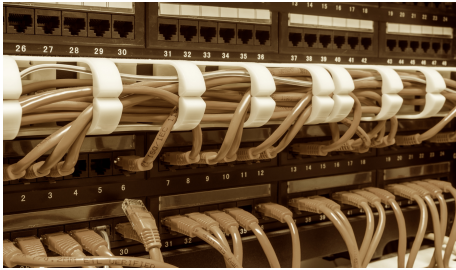

We offer a straight-forward subscription-based model to allow you to steadily manage monthly network costs, which are locked for a minimum of 3 years.

- Bespin will craft a BESPOKE solution for your expansion needs.

YOU + BESPIN INTERNATIONAL

= Partners dedicated to ensuring that your network expansion solution goes smoothly.
